I want to have the ability to listen to XM radio as the market sees fit. why should this group dictate what I get to listen to. They should try to change their business versus change progress. what if all the horse dealers did this when cars were introduced? Let the free market run its course.

I urge you, the FCC, to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that you demand and deserve.
